**Contract #2.100 Addendum #3:**

*This Addendum shall supersede the original plans or specifications. All other conditions shall remain unchanged. The following changes shall be included within bids.*

**CHANGES TO THE DRAWINGS:**

**NONE**

**CHANGES TO THE SPECIFICATION:**

**NONE**

**RFIs**

1. **QUESTION:** Will the Excavation contract be responsible for the Abatement? Generally, this is a separate specialty contract completed before the demolition starts.

**ANSWER:** Abatement will be an alternate

2. **QUESTION:** Have the existing septic systems been tested by Suffolk County Dept of Health Services? If so Can you please forward the results?

**ANSWER:** Results were negative, please see attached report

3. **QUESTION:** If SCDHS has not tested the existing septic systems to be removed are we to exclude possible contaminated removals and end point sampling?

**ANSWER:** Not Applicable

4. **QUESTION:** Regarding *Excavation, Backfill and Compaction*, The requirement for “jumping jack” compaction in areas other than building corners seems out of line. Particularly in drainage and utility trenches where our excavation mounted compactor is safer and achieves better, more consistent results

**ANSWER:** OK to use excavator mounted compactor

5. **QUESTION:** Regarding the Zurn Z192 roof leader connections Galvanized/castiron. Procuring this could be a long lead time item. Would an “or equal” standard SDR 35 connection with a rubber boot be acceptable?

**ANSWER:** No Substitution

6. **QUESTION:** Is there a chance for an extension. Suppliers are slow responding due to the amount of projects out there and difficulty in obtaining current pricing

**ANSWER:** Yes, 1 week extension
